

OTHER PLACES

(Moon Shot // Man on the Moon)

Detroit

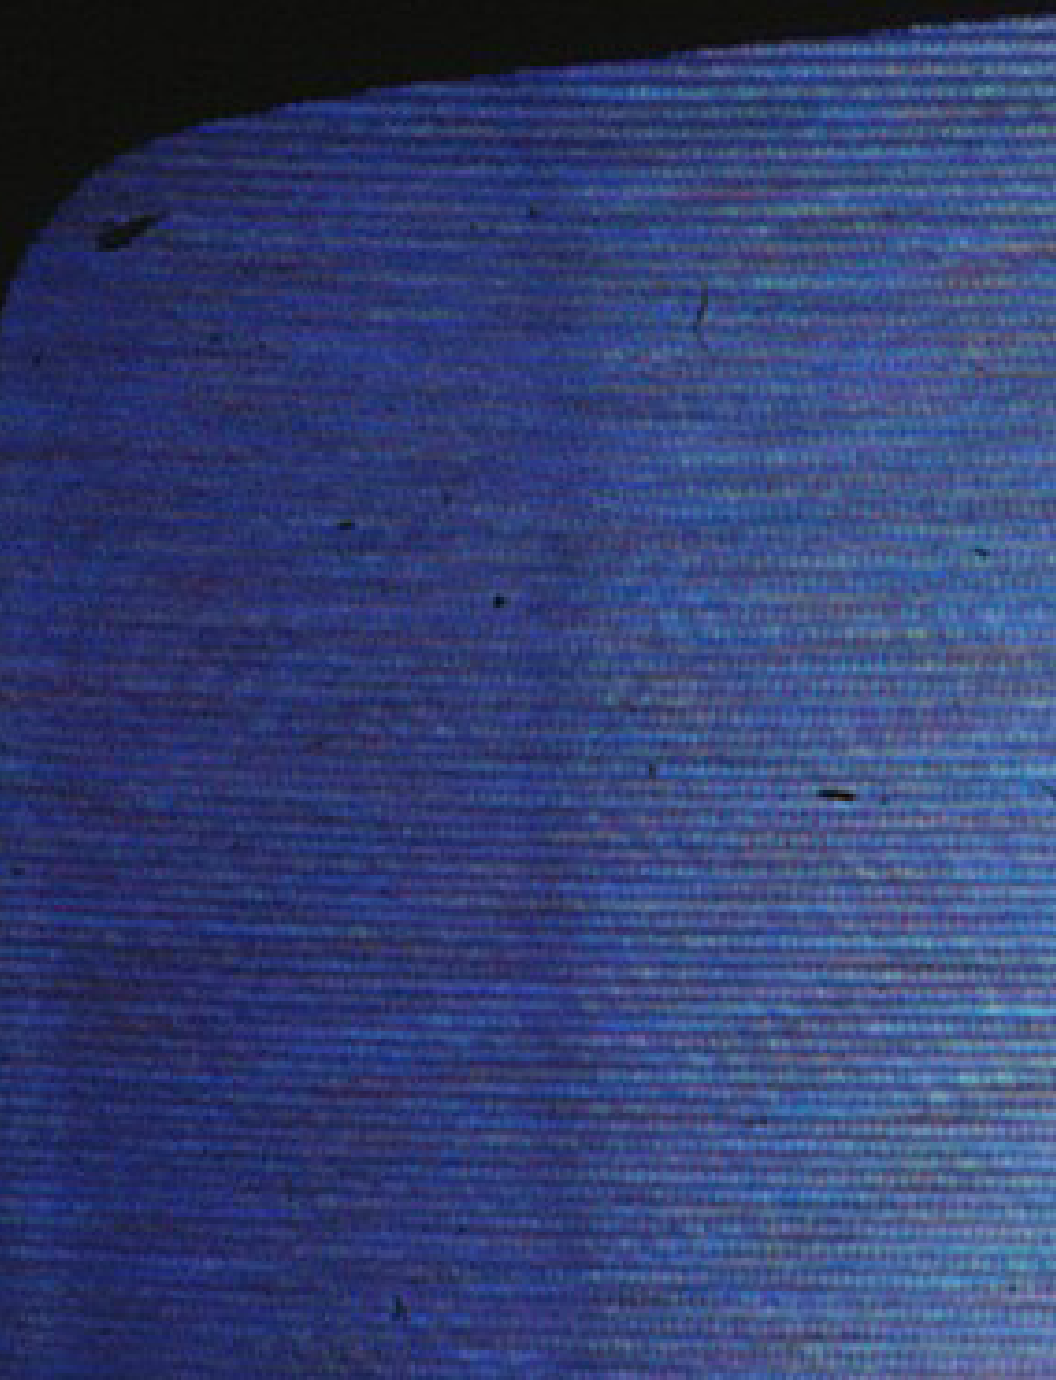

2012

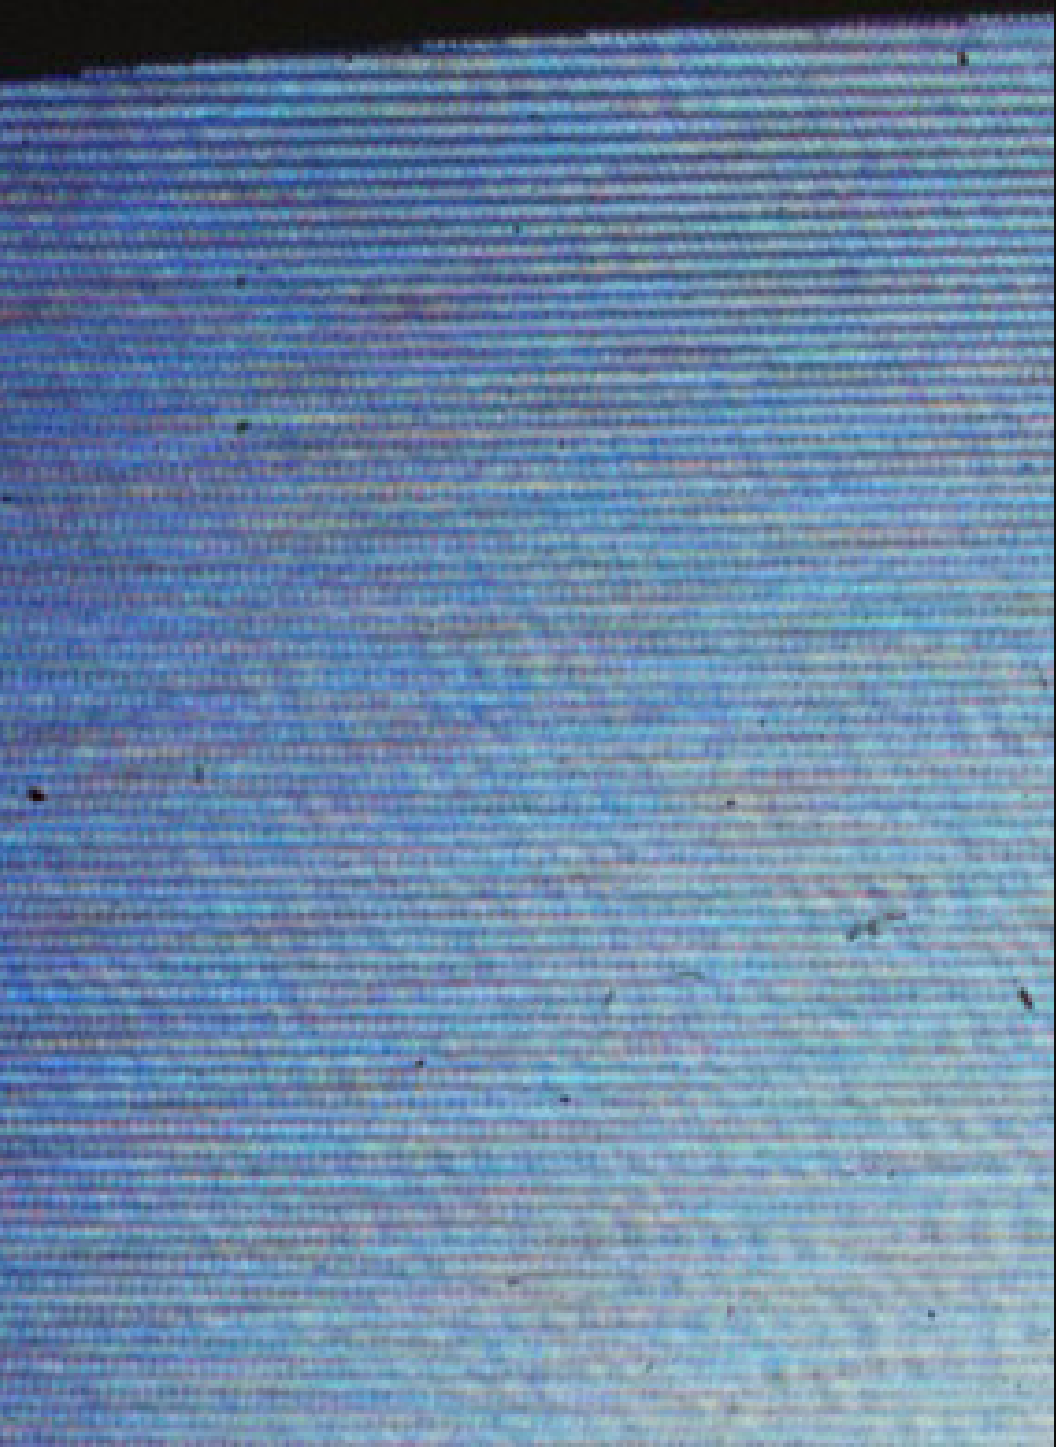

During my stay in Detroit this summer I bought 27 boxes of slides at a yard sale in the neighborhood of Indian Village. Each box contained approx. 36 slides, and they were all taken by the same couple, that I was told used to live in a suburb of Detroit; Royal Oak.

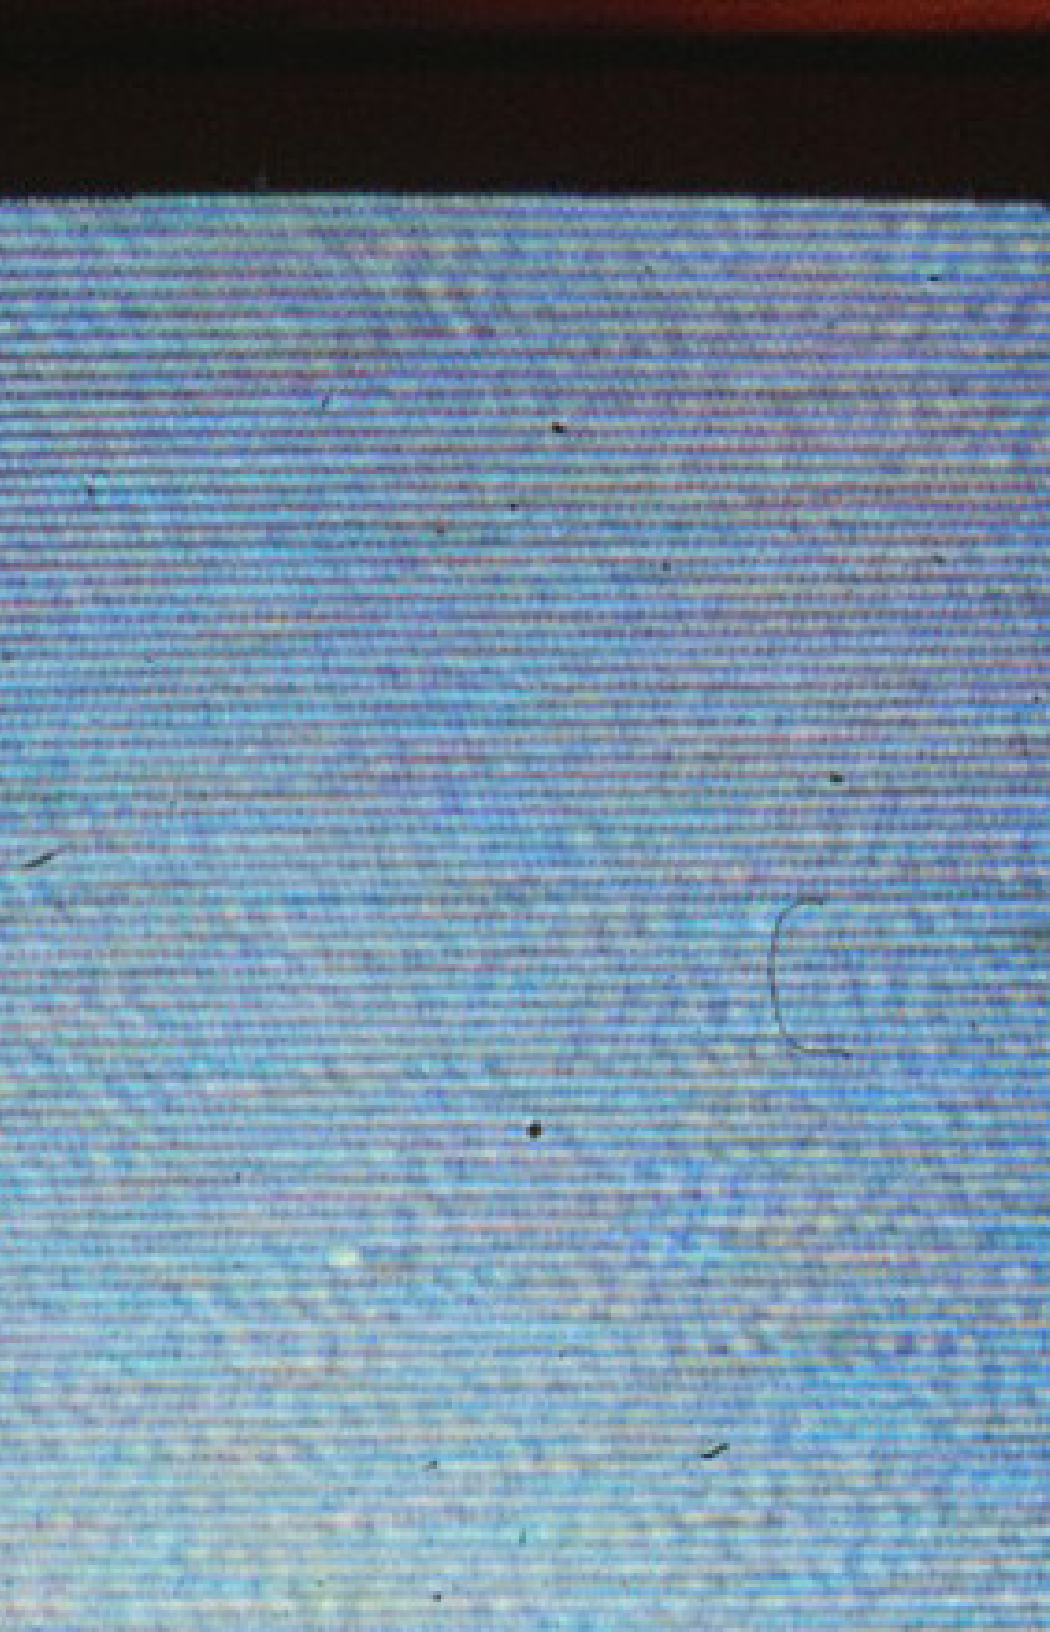

The boxes were carefully marked with the 38 different places the pictures were shot, and the year the pictures were taken. Some places were revisited and had several boxes marked with different years.

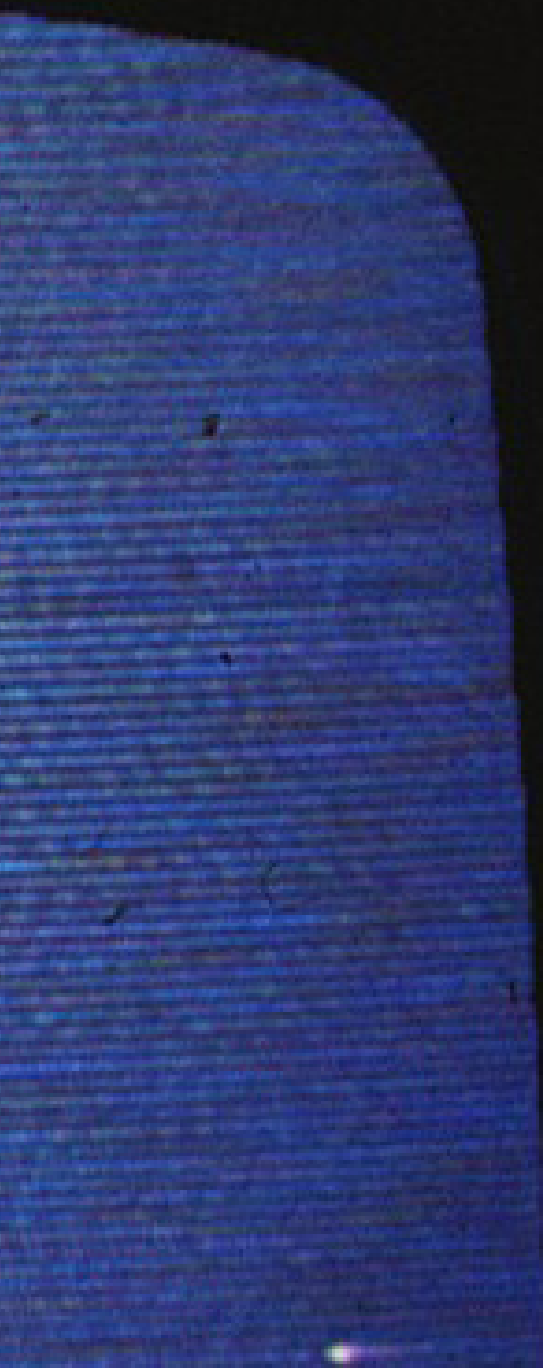

16 slides were shot in the Detroit area. 14 featured a TV during the moon landing in 1969. The last 2 were from the same year, and featured a banner saying *Goodspeed Neil*.
